EXECUTIVE SUMMARY

Detail-oriented Electrical Engineer with 7+ years of experience in maintenance, automation, and engineering projects within manufacturing and industrial environments. I am skilled in PLC programming, SCADA systems, preventive and corrective maintenance, and cross-functional team leadership. Strong analytical, documentation, and client service skills, with experience supporting administrative functions, financial analysis, and technical project execution.

A developer focused on transforming manual processes into efficient, fully automated workflows. Specialized in designing and developing web and mobile applications using tools such as Visual Studio Code and Antigravity, with experience implementing smart forms. Passionate about database architecture, optimization, and management, with a strong interest in turning data into accurate, actionable information.

WORK EXPERIENCE

Transformation Agent – Projects & Innovation

- Tesalia CBC (Butterfly Group) | Feb 2023 – Present | Ecuador
- Lead projects and innovation initiatives to improve automation processes and plant efficiency.
- Coordinate with multidisciplinary teams to design, implement, and optimize systems.

Electrical Maintenance Supervisor

- SONGA | Sep 2022 – Feb 2023 | Ecuador
- Supervised preventive and corrective maintenance in a high-volume manufacturing environment.
- Ensured equipment reliability and compliance with safety standards.

Electrical & Automation Technician

- Heineken Ecuador | Sep 2021 – Sep 2022 | Ecuador
- Managed electrical and automation systems for brewery operations. Reduced downtime by optimizing troubleshooting and repair processes.

Project Engineer – SCADA Systems

- Hydriapac S.A. | Jan 2019 – Aug 2021 | Ecuador
- Directed SCADA system integration for municipal water systems, ensuring successful installation and testing. Coordinated field operations, commissioning, and client documentation.

EDUCATION

Student of M. Eng. Engineering Science - Course Based (Actually)

Laurentian University of Sudbury, Canada, Ontario

Bachelor's degree in electrical engineering, Electronics & Industrial Automation

Escuela Superior Politécnica del Litoral (ESPOL), Ecuador

CERTIFICATIONS & TRAINING

- Total Productive Maintenance (TPM), Japan Training Center – UESS, Ecuador
- NFPA 70E Electrical Safety Certification, Ecuador
- Electrical Risk Prevention Certification, Ecuador
- LabVIEW and Arduino Programming Training, Espol, Ecuador

VOLUNTEERING & LEADERSHIP

- Former President, IEEE-ESPOL IAS Chapter: Organized conferences and training events.
- Volunteer, Hospital León Becerra: Supported equipment inventory and process optimization.

ADDITIONAL INFORMATION & SKILLS

- Spanish Native Speaker
- Advanced Office 365 (Word, Excel, PowerPoint). & Power Platform (Power BI, Power Automate, Power Apps)
- Teamwork and Effective Communication (Microsoft Teams, Planner, SharePoint)
